WIND TENTS & COVERINGS

Hycraft specializes in transforming ordinary venues into spectacular spaces.

Our tents are very adaptable, and will fit almost any venue.

Tents can be rigged on beaches, fields, gardens, balconies, over pools, indoor or outdoor and can accommodate any sized event from small parties to huge corporate events or wedding functions.

Hyver *HT*
SOLUTIONS FOR EVENTS & CORPORATE

Our system brings the following benefits to your events:

- * Interesting alternative to the standard 'pole-type' marquee
- * Available as canopy or a fully enclosed tent.
- * Vary in size from as little as 54 m² to 800 m²
 - * New and exciting spaces
- * Quick response and rapid rigging time
 - * Freedom of venue
- * All-weather protection
- * Branding opportunities
 - * Unique design
 - * Safety
- * Used as shade structures or 100% waterproof tents
 - * Professional service
- * Quick and cost effective tent solutions.

Our Fabrics

All our tent fabrics are treated with water repellent finish and are given an anti-microbial (anti-fungal) treatment plus a coating of Teflon to help keep your tent clean, dry and free from mould. We offer a range of different fabrics for you to choose from:

SX-1

SX-1 is a more suitable solution for permanent structures, as they have a greater longevity. This is the most durable stretch fabric for custom-fits.

100% waterproof
UV resistant
Teflon Treated

3ply 700micron-consists of a 260 polyester micron knit, bonded with an 180micron membrane, which comes in a breathable PU membrane or more durable PVC. PU membrane being more suitable as it has a greater memory.

Perfect Stretch

Durable Polymeric Coating

Compliant with all major international fire and safety standards.

SX-2

Tents from this fabric is also suitable for permanent set-ups as constant set ups damages the bond of the fabric and pvc.

Resistant to sun and UV rays

2 PLY PVC-Barrier consists of a PVC Film bonded to a 150 or 250-micron polyester, available upon request. Casts a 80% shadow and is 100% waterproof

SX-3 SX-4

Best for occasional setups. Not suitable to be left up for long periods of time and is the less durable solution when compared to the SX1. This fabric was developed mainly to produce tents for the rental industry.

Resistant to sun and UV rays

Available in any colour.

3PLY, 360micron-Consists of 150 polyester knit, combined with a 60pu membrane.

Light, easy to setup and transport. Cheaper solution to cover a large area.

Casts a 80% shadow and is 100% waterproof.

Single ply fabric used for as a quick temporary shade solution or a permanent indoor installation.

Resistant to Sun and UV rays

Light weight fabric

Available in any colour.

1PLY polyester -The fabric is coated with a Teflon finish and is semi waterproof.

Great in tensile strength

Easily branded

Mainly used as a shade solution.

Hycraft Extras

Furniture and fittings

Dining and seating

We can supply a variety of tables and seating to match your event. From round tables and covered chairs to bistro style high tables and tall stools for a more casual affair. We can even supply high chairs for your smaller guests and bean bags for your chill out zone. We can also supply a linen service for the hire of table cloths, slip cloths, napkins and chef's wear.

Flooring

For after dinner we make sure that the staging, the right dance floor, ground coverings and walk-ways are all supplied and installed.

Lighting

Stretch tents are amazing, but will look magical at night with some clever lighting. Working with a combination of lighting, including up-lighters, Chinese lanterns and fairy lights we will create the atmosphere to enhance your event.

Extra ideas and suggestions

There are plenty of additional touches that can make an event run more smoothly and we can supply almost anything we can dream up. Maybe, an easel for a table plan, big ice buckets for wine and beer, a cigarette butt bin, an under five's play area, or a groovy bar.

We'll work with you to make your planning a success, just call us!

Please contact us to discuss your upcoming event and your individual needs.
